

SHARE YOUR IDEA!

EDENS LANDING 'STEM IT!' COMPETITION

We **need you** to put on your creative thinking hats!

Can you and your family help design something that will improve on or make our school grounds more sustainable?

Create a display or model that showcases your idea and include a poster that explains it. Look at the school map and decide on the location where you will place your design (attached).

Examples of ideas:

Display and model requirements

- Display/model size needs to be a suitable size for you to carry in your hands from home to school
- Must be made from mostly recyclable materials.
- Please do not include items that are perishable and living i.e. instead of using real plants, you can make plants out of card board or paper

Poster requirements

- A3 size
- Includes your name, class and those who helped you
- Explain what your idea is and how it improves on or makes our school grounds sustainable
- Images need to include labels and annotations
- Include where the design will be located

Entries are due Friday 30 July 2021 (Week 3, Term 3)

Winner will be announced on STEM It! Day Friday 13 August

Hand in entries at the Resource Centre
